

Module 3 - Reading Comprehension Worksheet

A Technological World

Technology is everywhere in our lives. People use smartphones, smart TVs, and computers every day. In the modern world, we use technology at home, at work, and at school.

At home, smart devices help us save time. For example, we can use voice assistants like Alexa to turn on the lights or play music. In the kitchen, smart fridges tell us when food is finished.

At work, machines and robots help in factories, offices, and hospitals. Some robots clean floors, and others help doctors in surgeries. This is called automation, and it makes work faster and easier.

At school, technology helps students learn. Many use tablets or laptops for online classes. Some teachers use virtual reality to make lessons fun and interesting.

Technology has many advantages, but it also has some problems. For example, too much screen time can be bad for your eyes, and some people lose their jobs because of machines.

In conclusion, technology is very important in today's world. We must learn how to use it well and stay safe online.

A. Choose the correct answer.

1. What do smart fridges do?

- a) Cook food
- b) Tell us when food is finished
- c) Play music
- d) Buy groceries

2. What is automation?

- a) Learning online
- b) Using robots to do work
- c) Playing games
- d) Fixing computers

3. Where is virtual reality used in the text?

- a) In hospitals
- b) In supermarkets
- c) In schools
- d) In kitchens

B. Fill in the blanks. Write ONE word in each blank based on the text.

4. Smart homes use _____ assistants like Alexa.

5. Some robots help doctors in _____.

6. Students use _____ or laptops to study.

7. Too much screen time can be bad for your _____.

C. Match the technology with its use. Write the correct letter next to each number.

8. Smart TV		a) Makes lessons fun
9. Virtual reality		b) Calls and messages
10. Cleaning robot		c) Plays shows and videos
11. Smartphone		d) Cleans floors

☒ **Answer Key**

Part 1: Multiple Choice

1. b) Tell us when food is finished
2. b) Using robots to do work
3. c) In schools

Part 2: Fill in the blanks

4. voice
5. surgeries
6. tablets
7. eyes

Part 3: Matching

8. – c) Plays shows and videos
9. – a) Makes lessons fun
10. – d) Cleans floors
11. – b) Calls and messages
